

Coolwater Farms, LLC
Yellow Perch
 Fingerlings & Stockers

Coolwater Farms LLC sells live yellow perch eggs, fingerlings and fish that are well suited for both pond/lake stocking and aquaculture. Our live fish are of exceptional quality, and are harvested from our ponds using gentle, low-stress methods. Live fish sales and hauling are generally best done in the spring and autumn, when high summer temperatures will not unduly stress the fish. We strongly encourage you to contact us well in advance of your yellow perch needs, so we can best arrange for the safe harvest, transportation and stocking of your yellow perch. Our fish are generally sold as pellet-trained, although we also have non-feed-trained fish available. Either type will do very well for pond and lake stocking purposes.

Live Fish Pricing

Fish length	Orders greater than \$500 <i>(Cost per 100 fish)</i>	Orders less than \$500 <i>(Cost per 100 fish)</i>
1.25 - 2"	\$18	\$24 <i>(available June only)</i>
